Summary

Fullstack Developer with +2 years of experience in end-to-end development of scalable, high-performance applications for startups and freelance projects. Specialized in React, Next.js, TypeScript, and Node.js with a strong focus on performance optimization, responsive design, and intuitive user experiences.

Education

CAECE — **Mar del Plata, Buenos Aires, Argentina**
Systems Engineering — **In Progress**

Professional Experience

Favorcito — **LATAM - Remote**
Frontend Developer — **July 2025 – Present**

- Developed responsive interfaces with mobile-first approach, following design team directives in Figma.
- Optimized interfaces by significantly reducing LCP and improving performance metrics (Core Web Vitals), achieving a faster and smoother user experience.
- Refactored components applying scalable architecture principles (DRY, KISS, YAGNI).
- Implemented analytics solutions with Mixpanel for monitoring key metrics, contributing to sustained platform growth.

Freelance — **Argentina - Remote**
Fullstack Developer — **March 2025 – July 2025**

- Developed custom CRM (React, TypeScript, Tailwind CSS) for real estate development company.
- Designed and developed RESTful API using NestJS as backend framework, implementing relational database modeling and design in PostgreSQL.
- Integrated analytics dashboard (Recharts) to visualize sales and conversion KPIs, facilitating decision-making.
- Delivered a platform with custom solutions that optimized content management and reduced operational tasks.

Tualo — **Mexico - Remote**
Fullstack Developer — **April 2024 – February 2025**

- Led frontend development of the platform (Next.js and Tailwind CSS) using Server Actions for database operations with Supabase, improving application performance and security.
- Integrated OpenAI API for automated financial insights generation.
- Reduced manual tasks by 80%, significantly improving operational efficiency and data-driven decision-making.

Technologies - Tools

- **Frontend:** HTML, CSS, Tailwind CSS, JavaScript, TypeScript, React, Next.js
- **State Management:** Zustand, React Query
- **Backend:** Node, Express, PostgreSQL, MongoDB, Supabase, NestJS, Python, FastAPI
- **Tools:** OpenAI, Claude Code, Cursor, v0, Vercel, Lovable

Languages

English - C1 Advanced
