Experience

Favorcito   **LATAM - Remote**
Frontend Developer   **July 2025 – Present**

Responsible for frontend development, creating and improving pages used by clients and students, with a focus on performance, usability, and responsive design.

- Developed and optimized responsive interfaces, ensuring a smooth user experience on various devices.
- Implemented performance enhancements that reduced load times and increased platform accessibility.
- Resolved bugs and maintained application stability, ensuring service continuity.
- Incorporated new features that drove the platform's growth and adoption.

Freelance   **Argentina - Remote**
Frontend Developer   **March 2025 – July 2025**

Contributed to the creation of interactive dashboards, CMS platforms, and websites for global clients.

- Developed modern and modular interfaces that ensured visual consistency and a fluid user experience.
- Translated Figma designs into high-performance, fully responsive digital products adapted to different devices.
- Implemented dashboards and control panels that facilitated key data visualization and decision-making.
- Delivered customized CMS platforms that streamlined content management and significantly reduced operational tasks for clients.

Tualo   **Mexico - Remote**
Fullstack Developer   **April 2024 – Feb 2025**

As a full-stack developer at Tualo, I contributed to the development of the dashboard responsible for managing clients' financial data.

- Led frontend development, focusing on integrating report automation, implementing interactive data visualizations, and creating the user interface for clients to access their monthly financial reports.
- Developed dynamic charts using Recharts based on uploaded Excel files and integrated the OpenAI API for automated report generation, along with building the user dashboard for report access.
- Reduced manual reporting tasks by 80%, which led to a significant improvement in operational efficiency and better data-driven decision-making for clients.

Education

CAECE - Mar del Plata, Buenos Aires, Argentina
